

Share Network **UMBRELLA-SERVER** Windows 7 or 8

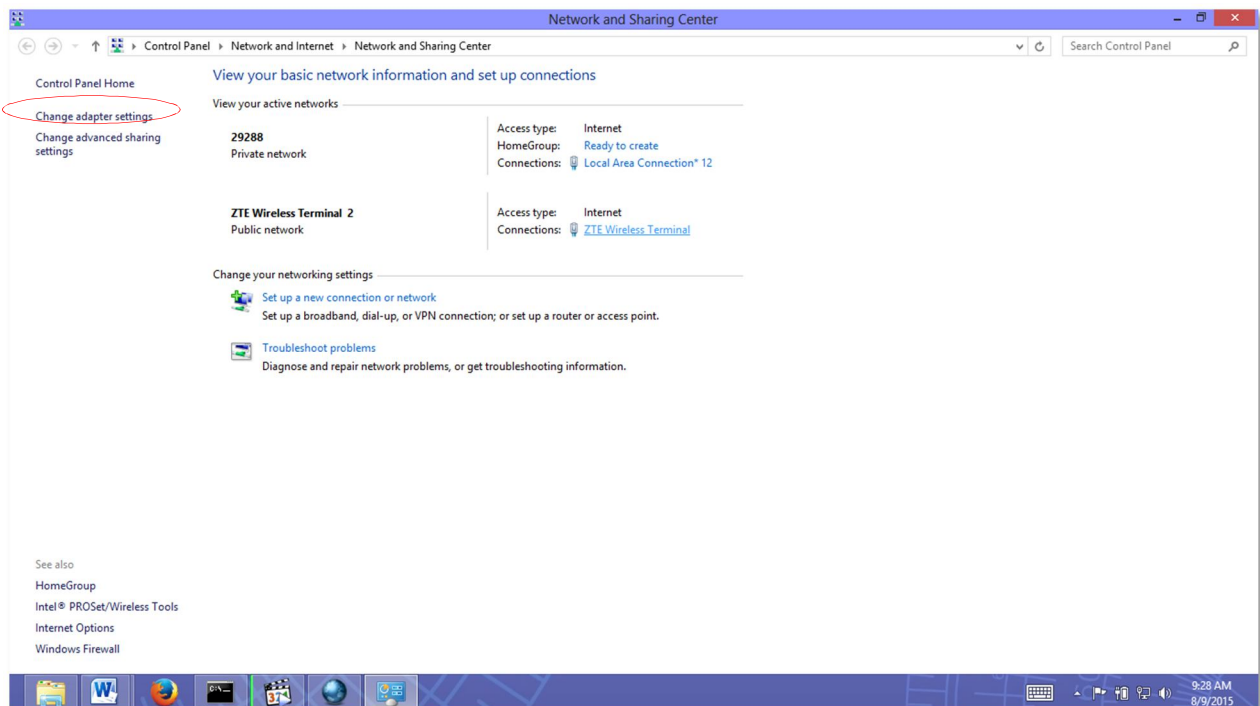

Connect your network which want to share

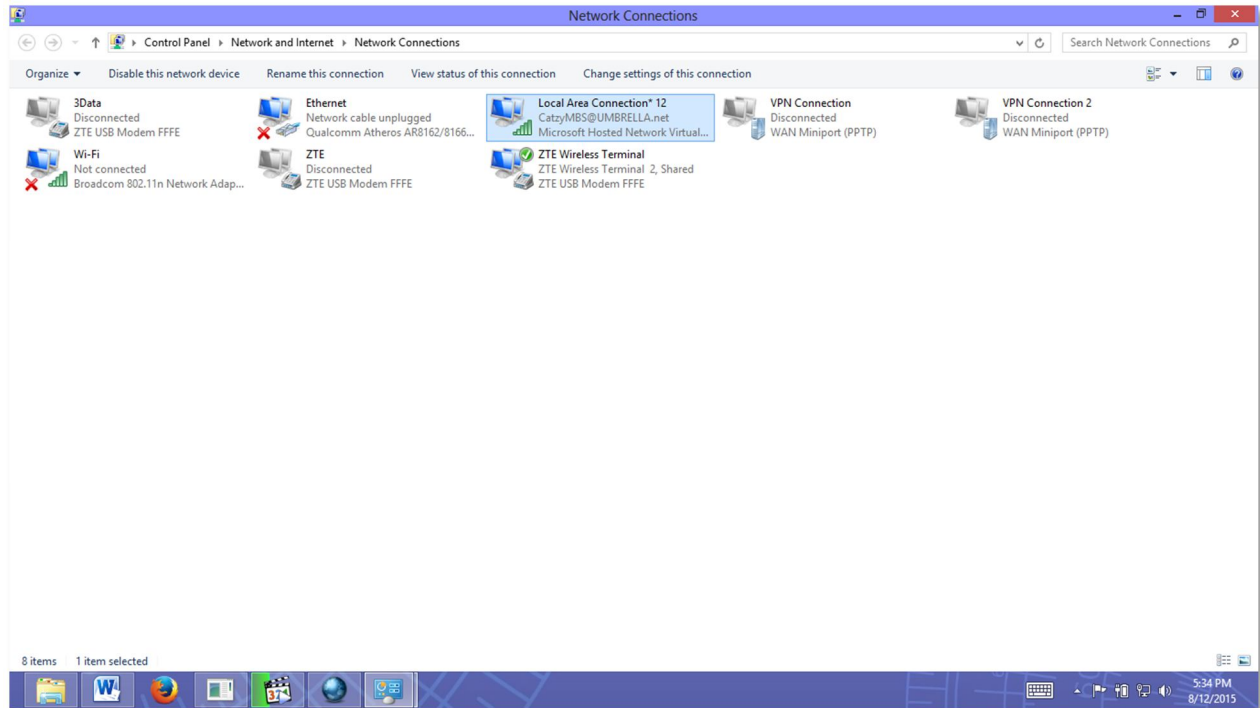

Open **UMBRELLA-SERVER**

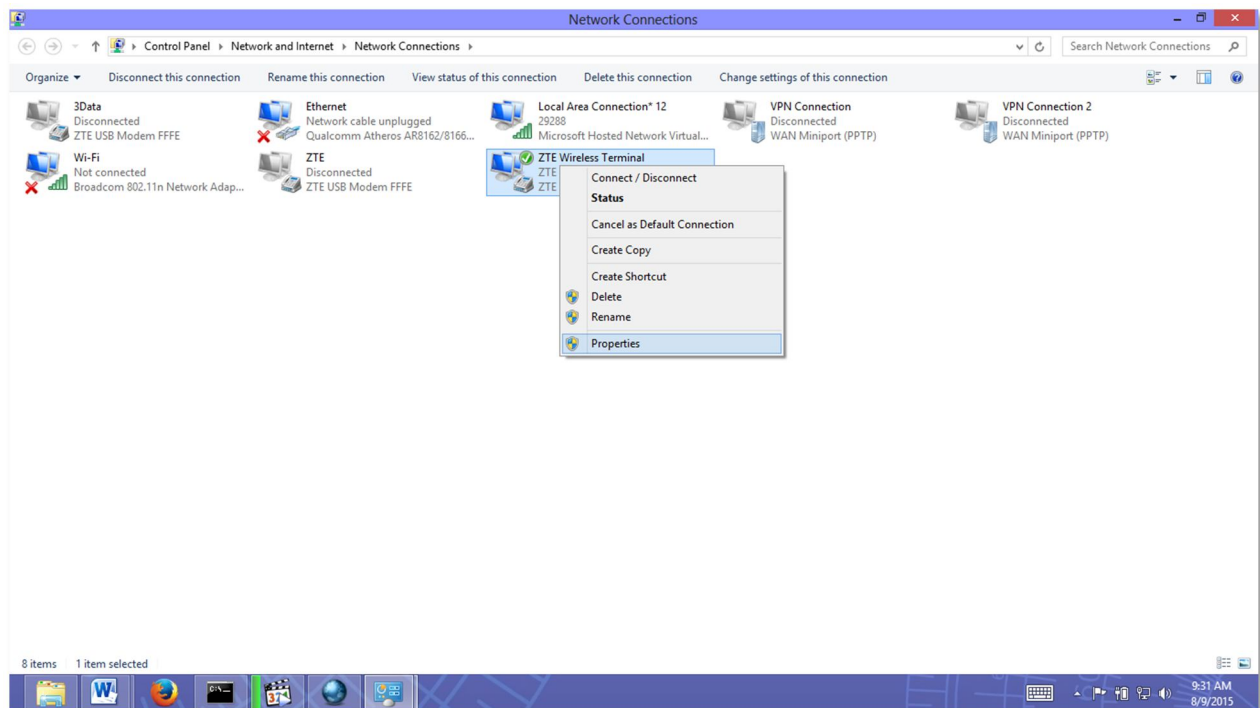

Right click on network icon and select **Open Network and Sharing Center**

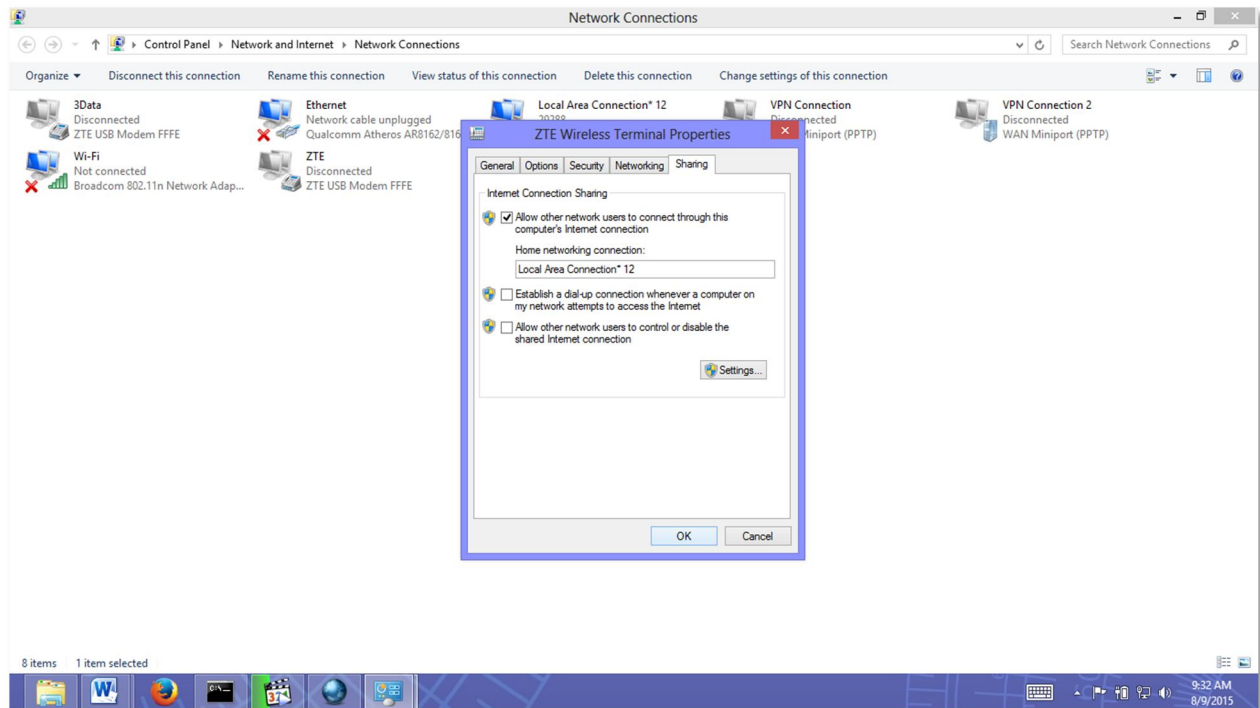

Select **Change Adapter Settings**

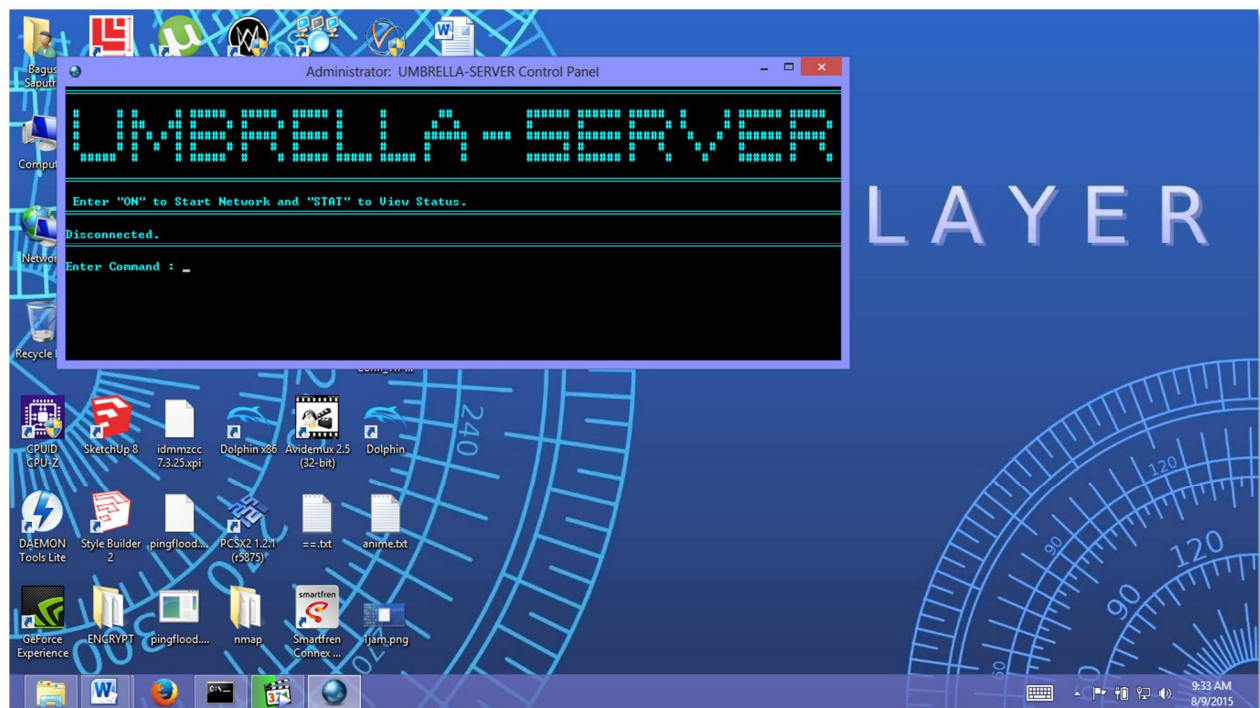

look For **Microsoft Hosted Network Virtual Adapter** and **REMEMBER** name of connection ex. **Local Area Connection*12**

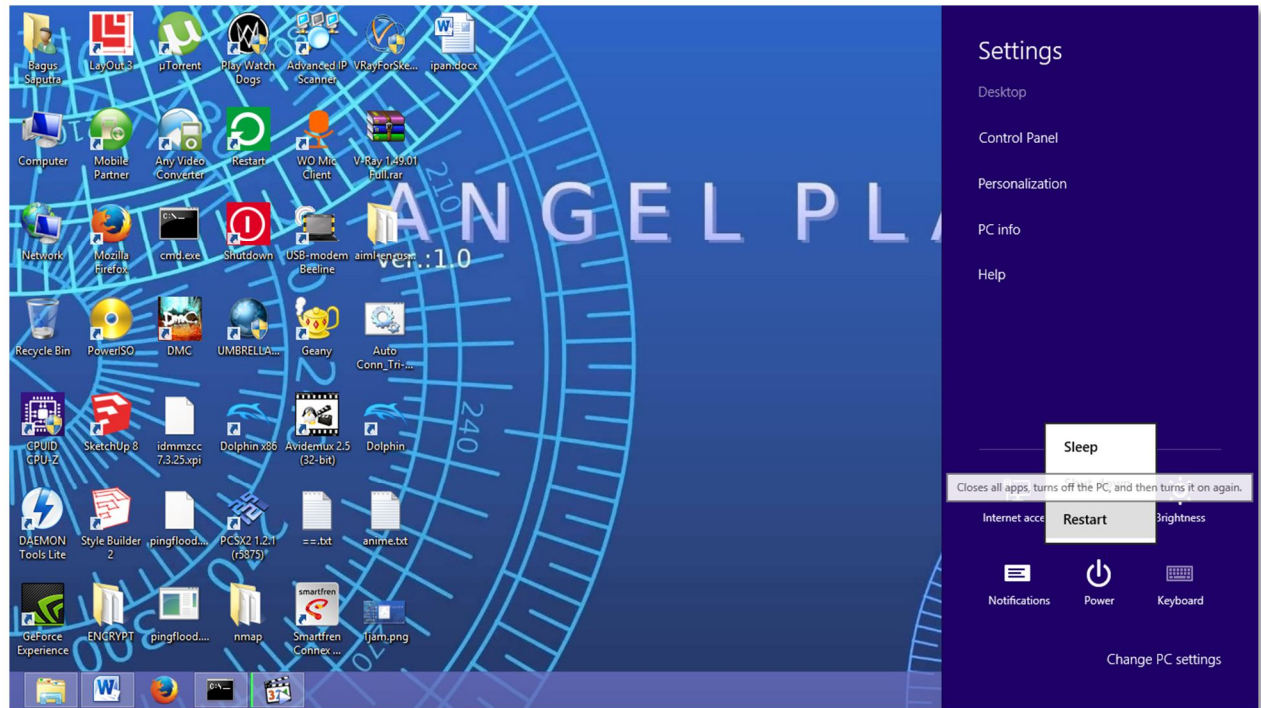

Right Click on network which want to share and select **Properties**

Select **Sharing** Tab, Check on Allow other user to connect.... And select connection name of **Microsoft Hosted Network Virtual Adapter** you remembered ex. **Local Area Connection* 12**

Press **enter** on UMBRELLA-SERVER then type **exit** and enter

Now **Reboot** and your network will be shared
